INFECTIOUS DISEASE

ISOLATION PROCEDURE

Student showing symptoms of fever, cough, fatigue.

STEP 1
Student calls Ashe COVID Hot line (310) 206-6217.

STEP 2
Ashe Center determine by phone if the student needs an in-person visit.

STEP 3
Ashe Center assess students’ condition.

STEP 4
Post assessment,

STEP 4a: If isolation is NOT needed, Ashe Center will provide student with medical advice and next steps. From here, skip to STEP 6.

STEP 4b: If isolation IS needed, Ashe Center will recommend a private room with a private bathroom to isolate in your residence. Contact tracing will be done by Ashe Center. From here proceed to STEP 5.

STEP 5
Instructions will be provided to student about isolation protocol. Student departs from Ashe Center to go directly home to self-isolate.

Self-isolation period is determined by multiple factors including symptom onset date and COVID test result. Please be prepared to self-isolate for 10 days.

STEP 6
Once released by Ashe Center, student returns to place of residence and resumes regular activities.

DEFINITIONS

ISOLATION separates sick people with a contagious disease from people who are not sick.

QUARANTINE separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.

Ashe COVID Hot line (310) 206-6217

WHILE IN ISOLATION

Student should bring belongings enough for 10-days (tech, medicine, clothing).

Organize meal delivery to your own room with access to private restroom facilities.

No visitors are allowed while in isolation.

Student may ONLY leave isolation room for a medical appointment or in an emergency (fire alarm, etc.)

Ashe Center will follow-up with student to check on symptoms and self-isolation status.
